PROFESSIONAL SUMMARY

Final-year B.Tech CSE (AI & ML) candidate with demonstrated expertise in full-stack architecture, distributed backend systems, and applied machine learning models.

EDUCATION

B.Tech in Computer Science & Engineering (AI & ML Specialization)
Metropolitan Institute of Technology | 2022 - 2026 | CGPA: 9.1 / 10.0

TECHNICAL SKILLS

- Programming Languages: Python, C++, Java, JavaScript, TypeScript, SQL
- Frameworks & Web: React, FastAPI, Node.js, Express.js, Tailwind CSS, Next.js
- AI & Machine Learning: PyTorch, Scikit-learn, TensorFlow, Natural Language Processing, Pandas, NumPy
- Databases & Cloud: PostgreSQL, MongoDB, Redis, Docker, AWS, Git, CI/CD, GitHub Actions

KEY PROJECTS

1. Distributed Placement Intelligence Engine

- Developed high-throughput asynchronous microservices in FastAPI and PostgreSQL with SQLAlchemy 2.0.
- Engineered PyMuPDF resume parsing pipeline and integrated dense semantic vectors via Sentence Transformers.
- Deployed multi-container environment with Docker and automated testing via GitHub Actions.

2. Real-Time Algorithmic Code Execution Sandbox

- Built isolated Python subprocess execution harness with memory and CPU time quotas for 20+ DSA challenges.
- Designed real-time testcase assertion telemetry and responsive React 19 UI with Monaco Editor.

PRACTICAL EXPERIENCE

Software Engineering Intern | CyberTech Solutions

- May 2025 - August 2025 | Bengaluru, India
- Engineered RESTful API endpoints and reduced database query latency by 35% through Redis caching.
- Automated integration test suite with Pytest, increasing test coverage from 60% to 92%.

CERTIFICATIONS & ACHIEVEMENTS

- AWS Certified Cloud Practitioner (2025)
- Ranked top 5% in National Inter-College Coding Hackathon (2025)
